

BADGER FLUID POWER

Exceeding The Expectations

Kuri Tec[®]
ENDURE[™]

DOT Air Brake Tubing

151 Series (Type B) & 251 Series (Type A)

Application: Auxiliary Air Systems, Trailer Air Brake Systems, Truck, Bus and Commercial Vehicle Air Brake Systems

Construction: Specially designed and highly engineered polyester compounds

Color: Black, Blue, Green, Orange, Red, Yellow

Size: 1/8", 5/32", 3/16", 1/4", 5/16", 3/8", 1/2", 5/8", 3/4"

Length: 100', 250', 500', 1,000', 2,000'

Features and Advantages

- Superior flexibility- Highly engineered material boasts improved flexibility versus traditional nylon tubing
- Resistant to abrasion, gasoline, diesel fuel, road salt, and deicing compounds
- Industry leading impact strength and vibration cracking resistance
- Easy installation

Meets or exceeds DOT FMVSS 106

**Meets or exceeds performance requirements of
SAE J844**
